FULL-STACK DEVELOPER (MERN)

## PROFILE

Motivated and passionate **Bachelor of Information and Communication Technology (BICT) undergraduate** specializing in **Software Development** at the **University of Kelaniya, Sri Lanka**. Strong interest in software engineering, full-stack web development, and modern technologies with hands-on experience in developing real-world web applications and solving practical problems.

Possess strong foundations in frontend and backend development, problem-solving, and teamwork, with technical expertise in **React.js, Node.js, Java, SQL, and Express.js**. Quick learner with the ability to adapt to new technologies and collaborate effectively in fast-paced environments. Seeking internship opportunities to apply technical skills, gain industry experience, and grow as a software engineer.

## EDUCATION

**University of Kelaniya, Sri Lanka**

2023 – Present

Bachelor of Information and Communication Technology (BICT)

Specialization in Software Development

**G.C.E. Advanced Level Examination**

2021

Technology Stream

## TECHNICAL SKILLS

**Programming Languages** Java, Python, JavaScript, C, PHP, Kotlin, SQL

**Frontend Technologies** React.js, HTML5, CSS3, Tailwind CSS

**Backend Technologies** Node.js, Express.js, PHP

**Database Technologies** MongoDB, MySQL, PL/SQL

**Development Tools** GitHub, Visual Studio Code, Postman, Linux, Figma

**Core Competencies** Full-Stack Development, Object-Oriented Programming (OOP), Database Management, Blockchain Technology

## PROJECTS

**BPC Computers - Full Stack E-Commerce web Application**

🐙 Frontend

🐙 Backend

🔗 Live Demo

Individual Project

Jan 2026 – May 2026

- Designed and developed a modern **full-stack e-commerce platform** using the MERN stack with secure authentication and responsive UI.
- Implemented **product search, admin dashboard, shopping cart, and order management** functionalities.
- Integrated **JWT authentication, Google login, and EmailJS** for secure user access and communication.
- Deployed frontend and backend services for improved scalability and maintainability.
- Technologies:** MongoDB, Express.js, React.js, Node.js, Tailwind CSS, JWT, EmailJS

**Learning Institute Management System**

🐙 Code Repository

Group Project

Sep 2025 – Dec 2025

- Collaborated in a team to develop a **Learning Institute Management System (LMS)** for managing courses, students, assignments, and grades.
- Implemented **authentication, role-based access control, assignment management, and grading functionalities**.
- Contributed to **backend development and database management** using **PHP and MySQL**.
- Technologies:** PHP, MySQL, HTML, CSS, JavaScript

**Hotel Booking System**

🐙 Code Repository

Individual Mini Project

Nov 2025 – Dec 2025

- Developed a **hotel room booking system** featuring user authentication and an interactive administrative dashboard.
- Implemented **room booking, availability checking, booking history, and room management** functionalities.

- Built secure backend and database architectures using **PHP and MySQL**.
- **Technologies:** PHP, MySQL, HTML, CSS, JavaScript
